OBJECTIVE

An insightful visionary, who's Enthusiastic about optimization of Supply chain, operations, and production processes. Being a performance-driven freshly graduated engineer, I am always concerned about the degree of compatibility between my personal career goals & the organizational goal in which I will work. Achieving maximum consistency and efficiency through Kaizen's (Continuous improvement) philosophy are missions of my journey. Always try to experience something new and challenging. Because what I believe is, having a goal that is challenging is far better than achieving easy goals with fewer difficulties.

SKILLS

Team Collaboration

Multi-tasking

Microsoft Excel

Microsoft PowerPoint

R studio

Cplex Optimizer Studio

Python (Data science dedicated)
